180 点を取るための表現集

Speaking / Writing 両対応 - 音読・暗唱・差し替え練習用

この PDF の位置づけ

これまでの学習では、音読・写真描写・情報を伝える回答から、Opinion で「立場 - 理由 - 具体例 - 結論」を組み立てる段階まで進んできました。

180 点を狙うには、難しい単語を増やすよりも、正確で自然な型を迷わず出せることが重要です。

この資料では、過去の回答メモに出てきた表現を、より高得点向けに整理・修正し、今後の練習で使いやすい形にしました。

使い方

1. まず「Speaking 60 秒型」を毎日 1 テーマ音読する。
2. 次に「万能理由テンプレート」から理由を 2 つ選び、自分の経験を 1 文だけ足す。
3. Writing では、同じ表現を段落化し、譲歩・比較・結論を追加する。
4. 練習後は最後のチェックリストで、理由の具体性と文法の安定性を確認する。

最重要メッセージ

Opinion では「英語力」だけでなく「答えの設計力」が見られます。
1 つの質問に対して、いつも同じ順番で話せる・書けるようにすることが 180 点への近道です。

1. 180 点に必要な Opinion の設計

Opinion で崩れやすいのは、表現不足ではなく「理由が抽象的なまま終わること」です。180 点を狙う練習では、次の 4 つを自動化します。

Priority	必要な力	練習で意識すること	使う表現
1	立場を即答する	迷わず agree / disagree / prefer を出す	I agree with the idea that ... / I would prefer ...
2	理由を 2 つに分ける	efficiency, cost, stress, safety などの観点で理由化する	There are two main reasons why I think so.
3	具体例を 1 つ入れる	自分の経験、学校、仕事、家族、友人の例にする	For example, when I was ... / In my case, ...
4	同じ意見に戻って締める	最後に質問の語句を言い換えて再提示する	For these reasons, I believe ...

これまでの制作の流れから見える強化ポイント

これまでの段階	できてきたこと	Opinion で伸ばすこと
音読・短文回答	正確に読む、基本文を作る	短い文をつなぎ、理由の流れを作る
写真描写	場所・人物・推測を述べる	推測を「理由」に変換する
情報提供	時間・場所・予定変更を正確に伝える	According to / Actually / Unfortunately などの整理表現を活かす
Opinion / Writing	賛否・理由・例を出し始めている	抽象語を避け、具体例と結論まで言い切る

180 点向けの判断基準

正確さ: 文法ミスを減らし、言い切れる文だけを使う。

明確さ: 立場、理由、例、結論の順番を崩さない。

具体性: good / important / convenient だけで終わらせず、なぜそうなのかを 1 文足す。

自然さ: ビジネス・学校・日常のどの話題にも使える表現を優先する。

2. Speaking: 60 秒 Opinion 基本型

Speaking では、長く話すより「止まらず、筋道を保つ」ことが重要です。次の型をそのまま暗唱し、単語だけ差し替えます。

時間	役割	使う英文
0-5 秒	立場	I agree with the statement that [topic]. / I would prefer [A] to [B].
5-10 秒	理由予告	There are two main reasons why I think so.

Writing: 同じ表現を段落化し、譲歩・比較・結果を加えて論理性を見せます。

共通: どちらも「立場 - 理由 - 具体例 - 結論」の順番は同じです。

7. サンプル回答

Speaking Sample 1: Work alone or in a team?

Question: Do you prefer working alone or working with coworkers?

I would prefer working with coworkers to working alone. There are two main reasons why I think so.

First, teammates can help me solve problems faster. For example, when I worked on a report, my coworker noticed a mistake I had missed. As a result, we improved the quality of the report.

Second, working with others reduces stress. This is because I can share my worries and get advice when I am confused.

For these reasons, I believe working with coworkers is better for me.

Speaking Sample 2: Should students exercise every day?

Question: Should students be required to do physical exercise during the day?

I agree with the idea that students should do physical exercise during the day. There are two reasons.

First, exercise helps students refresh themselves. For example, when I was in school, we had physical education every day. After exercising, I could focus better in class.

Second, it has a positive impact on students' health. If students sit in one place all day, they may become tired and stressed.

For these reasons, I believe schools should give students time to exercise.

Speaking Sample 3: Internet as an educational tool

Question: Is the Internet an effective educational tool for children?

I agree with the idea that the Internet is an effective educational tool for children.

First, it gives children access to a wide range of information. For example, they can watch educational videos and learn about topics that are not covered in class.

Second, many services are now available to protect children from harm when they use the Internet.

For these reasons, I believe the Internet can be a useful educational tool for children.

Writing Sample: Experienced applicants vs. recent graduates

Some companies prefer to hire applicants who have recently graduated from school. However, I believe it is better for a company to hire applicants who already have work experience. There are two main reasons for this opinion.

First, experienced workers can perform at a higher level from the beginning. Skills are developed through repeated practice and constructive feedback. Therefore, companies can shorten the training period if they hire people who already understand the basics of their profession. For example, an experienced programmer can begin working on advanced projects immediately, while a recent graduate may need time to learn practical details.

Second, experienced workers can respond to unexpected problems more effectively. Schools cannot prepare students for every possible situation. In contrast, people who have worked in the same field for several years often have specialized knowledge and can use it to solve uncommon problems. This can save time and reduce mistakes.

In conclusion, although recent graduates may bring energy and fresh ideas, experienced applicants are more practical for many companies because they require less training and can deal with difficult situations more effectively.
